

Declaration of Authorship

I herewith declare that I have written my paper with the title/on the topic of

independently and have not used any sources or aids other than the ones cited. This means in particular that I have indicated accurately and with precise reference to the exact source all work by others which I have used. This applies to all contents, for example texts, illustrations, collected data, models, ideas, hypotheses, lines of argument. I have clearly marked all use – regardless of the type of source – for example, journal article, website, book, conference paper, primary source, secondary literature – and regardless of whether I have used contents in full or in part, identically or modified, verbatim, paraphrased or in translation.

I furthermore declare that I have not submitted the enclosed paper either in full or in part in the framework of another course as a component of my course or examination assessment.

I am aware of the following:

- I am culpable of plagiarism if I use contents which are the work of others in my paper without citing the exact source. To do so would create the misleading impression that it is my own original work.
- Plagiarism is viewed as an attempt at deception. As a consequence, papers deemed to be plagiarized are graded as “Insufficient” (5.0), recorded in the examination file and submitted to the Examination Board.
- In serious cases or in the case of a repeated attempt at deception, the Examination Board will refuse permission for the examination to be taken again. This represents the final loss of the entitlement to take the examination.
- The legal base in this respect is § 9 Paragraph 5 of the Examination Regulations for the Bachelor’s programme in _____ and § 9 Paragraph 6 of the Examination Regulations for the Master’s programme in _____. The Examination Regulations for minor, teaching degree, double degree and doctoral programmes at the Faculty contain the same provisions.

I have read and understood the attached information sheet.

I am also submitting my paper as an unprotected electronic file (preferably a pdf file) to the lecturer in accordance with the procedure he/she has specified.
